

## Mark Salkeld

### *Director*

- Appointed February 24, 2011
- Committee Membership: Program & Standards

Mark is the President of PSAC. He has 27 years of experience with Nabors Drilling both domestically and internationally. He entered the industry in 1980 as a mechanic and moved through positions in maintenance, operations, human resources, training, quality control and procurement, taking on progressively senior roles that also included a variety of overseas assignment encompassing offshore northern Greece, Western Siberia and two projects in both west and east Australia. Most recently in Queensland, Australia, a state with a burgeoning CBM gas industry, he worked to introduce and employ Nabors Hybrid Coil over Top Drive Drilling Rigs.

Mark recently completed his MBA through Athabasca University while working full-time, recognizing that a combination of operational and management expertise are key in today's ever-changing service sector.
