RTO Recognized as Climate Smart Business 2010

Langley, BC – On behalf of the Township of Langley and their partners, Metro Vancouver and Greater Langley Chamber of Commerce, RTO (Resource Training Organization) was recently recognized for completing the Climate Smart Program and for their dedication and commitment to reducing their impact on the environment.

By measuring and committing to reduce their greenhouse gas emissions, RTO has joined a growing network of organizations and businesses taking action on climate change.

RTO's leadership and commitment to the Township of Langley's Climate Smart Pilot Project was recognized along with other businesses, during the Greater Langley Chamber of Commerce's Dinner Meeting on Tuesday, October 19/10.

RTO, established in 2007, has the responsibility for the implementation, development and maintenance of apprenticeship training for the Province's resource sector in BC. See www.rto.bc.com and www.tradesrock.com for more details.
